

COFFEE SCHEDULE

Thank you for your willingness to serve on our Coffee Committee!

We now have an additional serving station on the west end of the lobby. Please make sure coffee remains available at the window and the table, brewing additional coffee as necessary. At the beginning of the second service, there should be at least three full pots at the window. The table station coffee can be removed at the beginning of the second service.

If you are scheduled after the second AM service, please brew additional coffee if necessary. Once it appears everyone is finished getting coffee, rinse out the pots and place them upside down to dry on towels. Place the towels directly to the left of the coffee maker. Turn off both tank switches on the sides of the machine and both on/off switches in the front of the machine before you leave. The lights should remain on in the Kitchenette the entire morning and only turned off after the second morning service.

BEFORE AM SERVICES

Mary Timmer
